

# AUTOMATIC SPRINKLER SYSTEM TESTING AND INSPECTION

Automatic sprinklers are essential to any life safety system. But unless they're tested and inspected regularly, they can create a false sense of security.

But with the SimplexGrinnell Automatic Sprinkler System Testing and Inspection Program, you'll be sure your system responds when you need it most.

What are the advantages of this program? Peace of mind, for one. Reduced liability, for another. SimplexGrinnell not only helps you comply with insurance and fire code requirements, we also provide thorough documentation of your records.

## **Don't let blind faith in your sprinkler system become a potential hazard.**

Why rely on guesswork when you can rely on SimplexGrinnell instead? You need the kind of expertise that comes with the SimplexGrinnell Automatic Sprinkler System Testing and Inspection Service. It provides:

- A single service for both fire alarm and sprinkler systems. By integrating our testing procedures, the whole process becomes more efficient.
- Testing and inspection procedures that are based on National Fire Protection

Association (NFPA) Codes 25 and 13 and complement your existing fire alarm inspection.

- Pre-scheduled inspections to minimize disruption of your facility.
- Predictive maintenance to detect potential equipment failures.
- Service performed by expertly trained technicians using the specialized tools and instrumentation required to maintain the system's proper performance.
- Thorough documentation of completed testing.

*Let SimplexGrinnell be your single source for life-safety system services. We'll keep you a step ahead of any emergency.*
